

**OMNILUX LIGHT THERAPY  
INFORMED CONSENT**

**Reason/Benefits:** Omnilux™ was developed after 12 years of extensive medical research. Omnilux is a new technology based on narrowband Light emitting Diodes (LEDs). We use Omnilux blue™, Omnilux revive™, Omnilux plus™, and Omnilux PDT™ for the treatment of a wide range of dermatological conditions including, acne, photodamage, non-melanoma skin cancers, skin rejuvenation, vitiligo, and wound healing post elective surgery. Each detachable treatment head delivers pure, optimised, narrowband light via a matrix of LEDs carefully positioned to deliver of light to the treatment area.

Omnilux blue™ or Lux V IPL is coupled with Omnilux revive™ for the treatment of acne and the post phototherapy inflammation that follows after bacterial destruction.

Omnilux plus™ is for skin rejuvenation and collagen stimulation and stabilization. We recommend this treatment as a complementary treatment with Thermage for skin tightening.

The advantages of Omnilux™ therapy

- Stimulates the body's own cellular mechanisms by photomodulation
- Not a laser or an IPL so no heat, no side effects or downtime.
- Non-invasive, non-ablative safe therapy
- No damage to sub-dermal tissue
- Relaxing and calming experience
- Compatible with existing skin rejuvenation techniques such as Botox™, IPLs, laser resurfacing and cosmetic surgery such as blepharoplasty and breast reduction and augmentation

**Risks, side effects, and complications:** safe, but treatment may be ineffective with advanced and resilient skin problem.

**Alternative to photofacial:** Photofacial, Lux V for acne, Obagi Clenziderm, Obagi Nuderm, AFA, Retin A, microdermabrasion, chemical peels, cosmeceuticals, maintenance skin care products (Vitamin C, exfoliant, and sun screen), and ablative laser treatments.

**Frequency and duration:** For optimal result, you will need 8-12 treatments done at intervals of 3-4 weeks.

**Treatment:** Placement of the light hand piece over the treatment area and you will be given goggles to wear.

**Duration of treatment:** About 20 minutes for each body part (size of average face).

**Post treatment precautions:** None, but for healthy skin you should avoid sun exposure, tanning booths, and wear sun screen on a daily basis.

**Post treatment expectation:** With succession of treatments you can expect a healthier, brighter, firmer, and smoother skin. Please call our office at 510-226-8832 if you need advice.
